Monica Kandela

Data Analyst Associate
Arlington, VA | (703) 731-9756 | kandelamonica@gmail.com | U.S. Citizen | linkedin.com/in/monica-kandela

PROFESSIONAL SUMMARY

Information Technology graduate with strong analytical and strategic problem-solving skills and hands-on experience turning data into business impact. Proficient in SQL and Python, skilled at developing hypotheses, exploring structured and unstructured data, and translating findings into recommendations that drive business strategy and measurable outcomes. A curious, collaborative self-starter eager to grow into an analytical leadership role.

TECHNICAL SKILLS

Languages & Querying: SQL, Python (pandas, NumPy), JavaScript
Data & Analytics: Excel, Tableau, Power BI, KPI reporting, ETL pipelines, data mining, statistical analysis, test plan design & UAT
Cloud & Tools: Azure/Databricks (foundational), AWS (in progress), PostgreSQL, Git/GitHub, CRM (Mindbody, Zoho)
AI & LLM Tools: ChatGPT, Claude, Gemini, Microsoft Copilot, GitHub Copilot; prompt engineering, output validation; Anthropic AI Fluency certificate
Office Tools: Microsoft Office (Outlook, Teams, SharePoint, Excel, Word, PowerPoint), Google Workspace

EXPERIENCE

Data Operations & Analytics Associate | *SWTHZ Therapy Studio* | *Arlington, VA* Oct 2024 – May 2025

- Drove a recommendation that informed membership strategy by exploring customer engagement and transaction data to identify trends and behavioral patterns, uncovering a 15% revenue growth opportunity.
- Built customer engagement, membership, and transaction dashboards in Mindbody CRM to monitor recurring KPIs in real time and support data-driven decisions.
- Identified recurring patterns of anomalous account, payment and scheduling activity across CRM datasets, resolving discrepancies to improve data integrity.

Software Engineer Intern | *GBCS Group* | *Remote* May 2025 – Aug 2025

- Built an internal web portal using React within a cross-functional Agile team, accelerating feature delivery by 30% through reusable components and structured code reviews.

PROJECTS

Operational Data & Inventory Analytics Platform (Capstone) | *Hans Greens Microgreens* Aug 2025 – May 2026

- Served as a key contributor on a five-person team, developing hypotheses about operational inefficiencies and building an analytical framework using a relational SQL schema and Python to test them.
- Built an ETL pipeline to seamlessly integrate data from multiple sources and platforms, cleaning and reconciling raw data to enable data-driven decisions.
- Wrote analytical queries to evaluate operational metrics and translated technical findings into clear recommendations for the client.
- Designed and executed a multi-phase test plan (alpha, beta, user acceptance) covering 57 functional and non-functional test cases for automation, inventory, and delivery systems, achieving a 100% pass rate and confirming performance exceeded target thresholds

Data Visualization & Business Insights Simulation (Forage) | *Tata Insights & Quants* Jan 2026

- Analyzed a business dataset to identify trends and KPIs, built interactive dashboards, and presented data-backed recommendations clearly to non-technical audiences.

EDUCATION & LEADERSHIP

Bachelor of Science in Information Technology, Concentration in Web Development May 2026
George Mason University | *Fairfax, VA*

- Relevant Coursework: Statistical Analysis, Advanced Data Modeling, Relational Database Design, SQL Programming, Python
- Leadership: Rewriting the Code (RTC), Harvard WeCode ’25 Conference, Society of Women Engineers (SWE)
